

CRITICAL INFORMATION SUMMARY

NBN Fixed Wireless (NBN12, NBN-FWPLUS)

Information About The Service

The *NBN Fixed Wireless* service is a high-speed internet service which uses the National Broadband Network. Once activated, it delivers internet connectivity to your premises NBN Network Boundry Point (“NBP”).

Service Availability

NBN Fixed Wireless is only available within NBN serviceable locations whereby NBN has determined your premises as being active for ordering, and covered by the NBN fixed Wireless Network.

Equipment Required

The customer is responsible for sourcing equipment and configuration of Customer Premises Equipment (“CPE”) to the standards defined as follows:

- IPoE or Static IP assignment for WAN Interface

For each order we provide the customer configuration settings required to be entered into their device. Telephone Help (60min) is available at as part of the activation fee. Additional time charged at commercial rates.

Future Broadband also offers to sell to the customer equipment and optional pre-configuration services as per the hardware available at time of order, however the customer is under no obligation to use or purchase the devices or configuration.

Minimum Term

All Fixed Wireless NBN plans have a minimum **1 month** contract and a \$55 activation fee.

After the minimum term your account will remain active on a month-to-month basis.

Included Features

- Every service is allocated a /30 Routed IP Range which delivers a single assignable static address for the CPE.
- Each plan includes a base inclusion of data, measured as the sum of both the uploads and the downloads.

Optional Features

- VoIP Voice Plans (See website for plans)

For more features see *business nbn bundles* or *enterprise nbn*.

Installation

Standard installation is included. Non-standard installations may incur additional costs.

Expected Speeds

Future Broadband offers products based around the available wholesale circuit speeds to your premises. These speeds are the maximum under ideal transmission conditions, and are not maximum for your specific service. Your specific maximum speed will be negatively impacted by your distance from the transmission equipment as well as any noise or co-existing services. The carrier themselves may choose to limit your speeds as part of the operation of their network, an example being the NBN co-existence for FTTN and FTTB copper services.

Future Broadband Plans each have an Expected Speed Range. If you select a plan where we cannot deliver a transmission rate greater than the minimum speed of the range, we will contact you and ask if you want the next plan down.

Plan	NBN12	FWPLUS
<i>NBN Circuit Speed</i>	12Mbps down 1Mbps up	60M+ down 10M+ up
<i>Typical Evening Speed(7-11PM)</i>	Varies based on location	Varies based on location
<i>Speeds Outside These Hours</i>	Varies based on location	Varies based on location

While every effort is placed into delivering the service within the expected speed range, there are many factors which can prevent your specific usage of the service from achieving those speeds. They include the time of day, the website and location from where you are downloading, the capacity of the remote system. The method you use to connect can also impact speeds, such as your router performance and Wifi.

Information About Pricing

Plan Name	Included Data	Setup Fee	Monthly Charge	Total Minimum Charge (1 Months)	Unit Cost 1GB of data included in plan
NBN12-Unlimited	Unlimited	\$55	\$59	\$114	-
NBNFWPLUS – 500GB	500 GB	\$55	\$69	\$124	\$0.138
NBNFWPLUS – Unlimited	Unlimited	\$55	\$89	\$144	

- Total Minimum Charge is calculated as ((Monthly Fee * Contract Term) + Setup Fee)
- Excess usage is billed **at \$20 per 300GB or part thereof**. For example 150 GB excess = \$20, 450GB excess = \$40.
- Additional once off \$300 New Development charge applies if your premises is identified by as being within the site boundary of a NBN new development.
- Upgrade to a higher data inclusion, or speed at any time. Changes that involve speed modifications attract a \$25 fee.
- Plans cannot be downgraded, unless there is a technical issue that prevents us from offering your ordered speed.
- **Relocation is available – new setup fee (\$55) and 3 month additional term applies.**

Cancellation Fees

There are no cancellation fee, however you must provide 14 days advance notice to cancel the service. If the service is terminated for any reason (say a transfer to another service provider), 14 days notice will commence from this date.

Other Information

Paying for your service

- To pay for the service you must use Autopay with an Australian credit or debit card (Visa, Mastercard or American Express)
- Upon placing an order with us, we will debit a deposit only, of the access charge and the first monthly charge, plus hardware you may have ordered.
- Monthly Invoices are generated on the 1st of each month and are auto-debited soon after. Your first invoice with us will include a pro-rata component reflecting the arrears since service activation to the end of the month.
- Customer invoices are made available to download once logged into the customer portal.
- For greater payment options please see our *Business NBN Bundles*.

Usage Information

Usage is measured from the 1st to the end of each month. Currently usage information can be obtained using the online customer portal. Usage is updated once a day and may be delayed by up to 48 hours.

Optional Phone Services

Future Broadband provides customers options for VOIP and UNI-V phone services. These services do not provide priority assistance and are dependent on your internet service to function. If your internet service is unavailable and the phone cannot connect, you wont be able to dial 000. For Priority Assistance services we recommend you contact Telstra. For full conditions of phone services please view the phone service critical information summary on our website.
